A SC Air Board person (Mohsen) is meeting Kathleen next week to discuss. Like I said I have been informed the Board wants us to inspect. With the new Enf. Division, one purpose of forming was to make it easier to perform multimedia inspections. I suspect this is one reason why I would be performing an inspection along with my Air Enf. colleague.

If this does happen, believe me, I will want a good briefing and file review first. Our file has very limited old information.

FYI. My schedule next week is M and F off (son's Spring Break). McCoy Training in the middle. Scheduled the training before realizing Spring Break.

Thanks, John.

I have been on the road, but I will try to call Amy tomorrow.

We have a lot going on out there. If you are asked to do this, there is much to discuss.

Take care.

That is fine. FYI. I think SCAQMD is requesting EPA to inspect Exide. I think my management wants me to participate and possibly perform a RCRA CEI. I have only heard this second hand. So there may be nothing to it. I will keep you updated.

John -

I forgot to let you know we are meeting face to face all day today in Chatsworth. We will not be able to have you join us.

My apologies for not letting you know earlier.

Sent from my mobile device.
